My brain is always tickin', my brain
My brain is always tickin', my brain
My brain is always tickin'
Long as I'm live and kickin'
My brain, cool little cluster, that's my brain

My brain is steady workin', my brain
My brain is steady workin', my brain
My brain is always workin'
Long as you keep that coffee perkin'
My brain, cool little cluster, that's my brain

My brain is losin' power, my brain
My brain is losin' power, my brain
My brain is losin' power
Twelve hundred neurons every hour
My brain, cool little cluster, that's my brain

My brain is gettin' pounded, my brain
My brain is gettin' pounded, my brain
My brain is gettin' pounded
Pretty soon I'll be dumbfounded
My brain, cool little cluster, that's my brain
My brain, it's a cool little cluster, that's my brain
